

# ***Soothing Waters Parking Plan***

(Revised in 2015)

11 or more parking spaces are available for *Soothing Waters* clients. Thank you for taking the time to review and follow this plan. Your cooperation with this parking plan will allow Soothing Waters to flow well for all. **This document will review the spaces in relation to approaching Soothing Waters from Filbert Lane.**

## **Especially Important to Know:**

- \*Please do not block our driveway or park in the garage area in the rear of our home. (We may have volunteer firemen/medics at home who may need to leave in a moments notice.)
- \***NEW in 2015:** With the exception of **Space 1**, please do not access parking from the circle drive.
- \**Working with the designated spaces below*, all cars should be lining both sides of our driveway/facing the adjacent properties.

**Space 1:** turn left into the circle driveway in front of the homes and pull-in directly in front of the smaller home in the obvious parking spot

**Space 2, 3, 4 & 5:** approach the homes, but do not turn into the circle, proceed slightly past the circle and angle in on the **right side** of the driveway to any of the 4 grassy spaces between the small lilac plants.

**Space 5 - 11+:** before reaching the homes and circle drive, begin pulling into the spaces in-between the shrubs on the left side of the driveway.

Once parked, please proceed up the staircase with the handrails in front of the smaller home and walk through the courtyard, between the homes, to the black door marked "Soothing Waters Entrance" at the left rear of the courtyard. This door will lead you to the change areas and outside to the pool.

Please be sure to also review ***Guidelines Before Coming to Soothing Waters*** and **FAQ's** appropriate to your service.
